Daily air temperature log

LogSworn Compliance inc.

Ontario long-term care homes. Laid out to match O. Reg. 246/22, s. 24. Minimum 22 °C. Record at least once every morning, once every afternoon between 12 p.m. and 5 p.m., and once every evening or night.

Home: _____ Date: _____ Thermometer / sensor ID: _____

Area (s. 24(2))	Location / room	Morning			Afternoon (12 to 5 p.m.)			Evening / night			26 °C or more?	Action taken / notes
		Time	°C	Initials	Time	°C	Initials	Time	°C	Initials		
Resident bedroom 1											Y / N	
Resident bedroom 2 (other part of home)											Y / N	
Common area, floor 1											Y / N	
Common area, floor 2											Y / N	
Common area, floor 3											Y / N	
Common area, floor 4											Y / N	
Common area, floor 5											Y / N	
Common area, floor 6											Y / N	
Designated cooling area											Y / N	
Designated cooling area											Y / N	

Rooms without working air conditioning (s. 24(4))	Time (12 to 5 p.m.)	°C	Initials	26 °C or more?	Notes
Room _____				Y / N	
Room _____				Y / N	
Room _____				Y / N	
Room _____				Y / N	

Reminders. Section 24(4) readings apply every day from May 15 to September 15 and on other days forecast at 26 °C or above. A measured reading of 26 °C or more starts the heat-related illness plan for the rest of the day and the following day (s. 23(4)). Keep these records for at least one year (s. 24(5)). Adjust the number of rows to your home: one common area on every floor, every designated cooling area.
